

Fusion V 1.1a [Forex Robot](#)

The Hybrid [Forex Robot](#) That Made 355.46% in 19 Days of [FRWC](#) Live Trading Competition

What I saw today was something I never thought we'd see for another 10 years. I sat in stunned silence for 3 minutes after I watched this video - you'll understand why when you watch this. We've crossed a line here that changes things forever. As excited as I am, I honestly can't help but be a little worried. Where do we go from here?

- See the World's first Hybrid SUPER [FOREX ROBOT!](#)
- 19 days Live - 355.46%
- The Hearts of FIVE Robots in ONE Body!
- Exclusively Overhauled and Redesigned Money Management!
- 100% total access to the EA Lab!
- Investor passwords for verification!

This changes everything. How can any other marketers fight something like this? This is going to put every one of them out of business for good. Their plan has always been to give you just a little bit of a good thing to keep you coming back for more... but this is something entirely different. I think we're witnessing not just a turning point in the history of Forex, but perhaps the world as well. How can an organization just hand over something like this? It just doesn't make sense - there won't be anything left to b-u-y if you get this. This is going to make a few lucky people insanely wealthy very soon. Are you going to be one of them? It goes on sale tomorrow!

Mark McRae: "What would you do if you won \$100,000? I just watched a video of the winner of the [FRWC](#) receive his prize. It's actually quite interesting to watch people from different parts of the world, he is from Croatia - it looks very cold there. On the right-hand side of the page you can see the pictures of the other winners of the competition. The 1st place winner was a guy called Drazen Ziskovic who's EA made 145.60% in two months. In his very brief interview he talks a little about how he likes to test his EAs. He has been trading for six years, and he was actually one of the finalists in the 2007 MetaTrader challenge. Take a 4 minute break and check it out!"

Watching this whole [FRWC](#) take shape has been very interesting. It's a different approach from the usual stuff out there. A lot of good content has come and gone, so make sure you don't miss this video! When I saw this, my jaw hit the ground! I was speechless, I could hardly believe what I was looking at, it's just so incredible - In one game-changing move they've altered the destiny of Forex trading. The [FRWC](#) has already done more than we could have ever have hoped for the EA industry, but what they've done here will change things forever. Fusion-V 1.1a is going to change the world and your life! The only question is... Are you ready for what comes next?

Fusion-V 1.1a is like nothing the world of Forex has ever seen before. 5 Robots that were great on their own is one thing - but putting them all together - merging the best qualities of each with the weaknesses of none... it's just revolutionary. It's absolutely mind-boggling. This has just put every single EA marketer on the planet out of business - the only way they can survive now is by picking the crumbs of whoever doesn't manage to get in on the 16th.
